

UPCOMING EVENTS YOU DON'T WANT TO MISS

Now that most people are returning to their (home)offices and a new semester is about to start, we thought it would be a great moment to bring the following Open Science events to your attention.

- **September 8-9: Open Science & Reproducibility Research Event.** Expect inspiring keynotes by **Prof. Lex Bouter** (VU Amsterdam) and **Prof. David Moher** (OHRI, Ottawa), interactive sessions, and a (free!) lunch organized by OSCN. Registration and the full program can be found [here](#).
- **September 22-26: National Open Science Week** in which OSCN will organize a discussion session around Open Science topics suggested by you! We hope to see you all on September 25th in the Cultuurcafé (start at 16h, drinks - on us - afterwards). Please mark your own calendar as we still need to figure out an acceptable way of sending Outlook invites.
- **October 24: Open Science Festival** in Groningen. Registration is now open. More information can be found [here](#).

THINKING OF TEACHING OPEN SCIENCE?

The summer break is over, and a new semester is about to begin. Are you teaching a course this term? It's the perfect opportunity to **introduce your students to Open Science!**

Maybe you've already thought about bringing Open Science into your classroom but aren't sure how to start. Or perhaps you'd like some ready-to-use materials, activities, or support to make it easier. Whatever stage you're at, **we're here to help!**

Open Science begins with the next generation of researchers. Let's work together to grow open scientists and shape a more transparent and collaborative research culture. Feel free to reach out —we'd love to support you!

JOIN THE OSCN ORGANIZING TEAM

Do you want to help shape the future of Open Science in Nijmegen? **We are looking for enthusiastic members to join the OSCN organization team.**

As part of the team, you will:

- Contribute to planning events and activities for our

- community.
- Collaborate with colleagues passionate about Open Science.
- Gain valuable experience in community building and science communication.

This is a great opportunity to get more actively involved, expand your network, and support the growth of Open Science practices at Radboud University, Radboudumc, MPI, HAN and beyond. **Interested?** Let us know by dropping us an email (openscience.nijmegen@gmail.com).

We look forward to working with you!
